The University of Lausanne
And the Institute of Psychology

Presents the following opening:

**Fully funded PhD position in Affective Sciences**

**Starting date:** April 1st 2020 (or to be agreed)
**Employment rate:** 100%
**Contract duration:** 3 years ½ (1 year contract, renewable 1x 2 years ½)
**Place:** Lausanne, Dorigny, Switzerland

**Topic**

The candidate will be integrated into a broad research program studying the impact of individual differences on emotional reactions and regulations. He/she will be trained in psychophysiology and will pursue a research activity that will combine surveys and laboratory studies. These latter will measure emotional responses at the level of experience, expressivity and peripheral physiological reactions. The work will take the form of a doctoral thesis (under the supervision of Prof. Elise Dan-Glauser) and the publication of articles in international peer-reviewed scientific journals.

100% of the activity rate will in principle be devoted to research (development of experiments, data processing, conference presentations, writing). Some occasional support for teaching in psychology (Bachelor and Master levels) and institutional activities cannot be excluded.

**Successfull candidate will have**

- A Master degree in psychology (basic knowledge of emotional psychology is an asset).
- The desire to develop and conduct experimental studies on emotional processes.
- Good knowledge of the research process, and of data collection and quantitative analyses.
- Interest in joining and taking an active part in a team and a research laboratory.
- The ability to collaborate with researchers inside and outside the laboratory.
- Interest in mastering and developing scientific writing and critical thinking.
- Fluency in French for contact with participants (an asset).
- Fluency in English for research activities (an asset, but mandatory if not fluent in French).
- Rigour, attention to details, thoroughness and autonomy (essential skills).
- A strong interest in research, a dynamic attitude and a very high motivation for an academic career (essential skills).

**Application**

The complete application form (i.e., including a cover letter, CV, ½ page summarising the Master's work, and the names and contacts of 2 referees) must be uploaded in a single document in .pdf format on the Unil application portal until February 15th 2020.

To apply, please look for the corresponding position here (please leave a few days for the add to appear):
https://career5.successfactors.eu/career?company=universitdP&career_ns=job_listing_summary&navBarLevel=JOB_SEARCH& s.crb=PscOVQ6GYtc2oETUbXzVmM3LAk%3d).

Informal enquiry can be addressed to Elise Dan-Glauser at application.edg@gmail.com with the subject "Application". Recruitment will potentially remain open beyond the indicated date.
